KAPTIVO USE CASES

Enterprises can secure company IP, efficiently archive and share whiteboard content, and livestream to global offices.

Educational institutions can digitize any traditional whiteboard without changing the way educators and students work.

Remote workers can participate more productively when collaborating with distributed team members or clients.

SAVE AND SHARE CONTENT

Access whiteboard content online in real time on any device through browser-based interface. No apps or downloads!

Save whiteboard content as a single snapshot or PDF of the full session. Share content for later review.

Invite participants to view the whiteboard session or share content through any video conference application.

PATENTED TECHNOLOGY

Proprietary embedded video processing technology identifies and extracts only content written on the whiteboard.
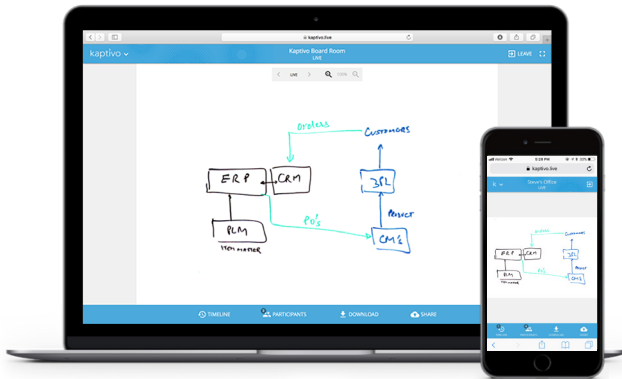

Image is automatically enhanced to remove any reflections, glare, and people blocking the board.

Camera analyzes individual snapshots of the board multiple times per second for live streaming.
